Newsletter Vol.1 | 02-2022

SUBJECT: COVID-19 VACCINES

Planning to travel to Canada?

Passport ... **check!** Visa ... **check!** COVID vaccines ... **ugh!!**

Did you know that Canada's vaccine policy changes frequently? So, before you finalize your travel date to Canada, be sure that you are a 'fully vaccinated traveller' at the time you enter Canada.

The current list of COVID vaccines accepted by the Government of Canada for the purpose of travel to and within Canada:

- AstraZeneca/COVISHIELD (ChAdOx1-S, Vaxzevria, AZD1222)
- Bharat Biotech (Covaxin, BBV152 A, B, C)
- Janssen/Johnson & Johnson
- Moderna (mRNA-1273)
- Pfizer-BioNTech (Comirnaty, tozinameran, BNT162b2)
- Sinopharm BIBP (BBIBP-CorV)
- Sinovac (CoronaVac, PiCoVacc)

To qualify as a fully vaccinated traveller, you must have received, at least 15 calendar days before the day you travel:

- at least 2 doses of a vaccine accepted by the Government of Canada for the purpose of travel
- or a mix of 2 accepted vaccines
- or at least 1 dose of the Janssen/Johnson & Johnson vaccine

Your proof of vaccines must be included with your application.

Remember to plan well, be ready, and stay safe.
